# #COZMICLOVE

The album “#CozmicLove” is released on her own Jupiter Productions Label and is geared towards house music lovers, showing respect and love to deep and classic house sounds and culture from different eras and geographical locations.

#CozmicLove clocks in at 12 tracks, ranging from the late night warehouse banger “Getting Bigger” to the dreamy downtempo “Hard Life Reprise”, which features live cello from Baroque Quartet iFuriosi’s Felix Deak.

Most tracks on the full length album straddle the dance floor and lounge world simultaneously, with plenty of percussive energy, vintage chords and pads mixed with soulful samples, as well as her own vocal styling on such tracks as “Disco Droid”.

The first single “Bassline Sound”( April 27th 2017) received international radio and podcast play and was accompanied by the video directed by Toronto’s own Shelley Sumairsingh. The “Bassline Sound” video is currently being distributed on MTV Canada and MTV Australia. For more information on the album, email: [cozmic@djcozmic.com](mailto:cozmic@djcozmic.com)

# BIO

Cozmic Cat is a self made dj who started from the ground up, handing out flyers and throwing small parties in Philly with friends sharing their love of music, vinyl and the dj scene. After working in a record shop by day and learning about the roots of Jazz, Soul, Funk and House Music from some of Phillys deepest crate diggers.

Coz began dj-ing with a passion that led to several awards and over a decade in experience in everything from warehouse parties to corporate galas. Years later in Toronto, she started her own label and production company Jupiter Productions continues to dj and promote events, one of which remains successfully ongoing after 11 years.

Today, Cozmic Cat is considered one of Toronto's top djs and is booked regularly at top venues and a wide range of high profile events in and out of Toronto where she is trusted as a top-quality entertainer who knows how to keep any event cool, relevant and above all fun. From upscale lounge vibes to full on dance floor mayhem, Cozmic Cat's love of dj-ing and her ability to read any crowd has taken her from Iceland to Australia, South Africa to Canada's Northwest Territories and back again spinning everything from deep house to block rockin, party jams. Coz jumps genres and decades without missing a beat.

A Cozmic Cat set will guarantee you the rare combination of live wire energy, wide musical knowledge, experience and professionalism, as well as a cool factor and confidence that comes from being a longtime key player in a scene she helped to build from the ground up.

March 1 2018 marked the release of Coz's second album entitled *GEMS e.p*, which consists of 3 tracks including the Afro tech banger, I'm In Antigua.

Watch for Cozmic Cat on tour in a town near you!
